Findings (22 out of 58)

How do you want to become more empowered? (20 responses)

Have our student voices heard
Reaching out to everyone in the student body
Making others feel included, happy. Wanting to make a difference in peoples lives
By voicing my opinion and including others
Leadership
Finding ways to include everyone in school activities
By trying to get other people to stand up amd raise their voice for what they are passionate about
By being able to voice my opinion more often.
I want to be more empowered by helping others and hang out with people that are sitting alone at lunch.
Find unity with student council and get connected in my school.
To be supported and encouraged and have the freedom to pursue what I want to.
Follow my passions
Opportunity to speak up with issues important to me without having to deal with adult "middle men"
Be inspired by other people's great ideas
Ideas are taken into account in some shape/form
Have a larger variety of clubs available at school. Make a environment where each person can can join together with others in a topic\activity they enjoy.
I think transferring responsibility to the student is key in empowering students
By joining student council
I want to become more empowered by learning all I can constinally and taking initiative when ever possible
I want to be able to get other students as involved as possible in school events and be a role model to the student body

What can we do to improve next year's Symposium? (19 responses)

Keep the energy high and interactive
Nothing
more up and movement based activities
More movement and activites
Not much. Very well done.
More speakers
More guest speakers.
Getting the people in your group to know each other
Have more inspirational speakers.
For next year they can find better rooms for the Symposium because I found when we went into smaller groups, you could hear the groups in rooms next to you very clearly.
Maybe more breaks, games in between sessions to keep everyone excited.
I thought it was a little unorganized and in some situations I was slightly confused on what we had to do. But overall, it was a really fun experience!
N/A; Wasn't there
A bit more icebreakers
More movement throughout, not just as icebreakers
Have a large group discussion about school issues
Was lit
Nothing, it was great
I think it was really awesome and I can't really think of anything there is to improve on. GREAT JOB!

DC (Digital Citizenship)

Before you...

THINK!

T - Is it true?

H - Is it hurtful?

I - Is it illegal?

N - Is it necessary?

K - Is it kind?

Findings: How is tech being used to support your learning?

The image features a background of a grid of hexagrams in shades of green and blue. Overlaid on this are several white text boxes with black text, each representing a different educational technology or tool. In the bottom right corner, there is a screenshot of an iPhone home screen showing various educational app icons.
